

Welcome!

I created The Avatar® Course over twenty years ago with the intention of teaching people how to live more deliberately.

Since that time the company that manages the course, Star's Edge International®, has grown from three people who were working out of my living room, to more than 12,000 people, who now work in 71 different countries.

I am delighted to tell you that tens of thousands of graduates have expressed gratitude for this work.

I think that the real task before us on this planet is to make ourselves more aware, more immune to insanity, and to increase the amount of compassion and cooperation.

*Wishing you the best,
H*

Here Is Your Avatar Information Pack!

You are receiving this pack because either you requested it or a friend asked us to send it to you.

We've also included exercises that can help you live a better life right now. But there's a catch...
